

PolyStamp Protective Edge (PE-N4840)

**100%
Recycled**

Top view (left). Side view (right). The design features a half-inch outer lip to enhance load stability and stiffness.

Smart Design

The Protective Edge thermoplastic pallet is manufactured using high-performance, proprietary recycled materials, designed to provide long-term value. Its nestable design ensures efficient storage and transportation, while the extended feet and reinforced edges offer enhanced stability for storing and moving heavy loads in diverse environments.

Specifications

Weight

30 lbs. / 13.6 kg

Fork Height

3.75 in / 95 mm

Dimensions

Length: 48 in / 1,219 mm

Width: 40 in / 1,016 mm

Height: 5 in / 127 mm

Load Capacity

Dynamic: 3,500 lbs. / 1,589 kg

Static: 20,000 lbs. / 9,072 kg

Plastic Pallet Perks

- ASTM tested
- Durable and strong
- Reusable and cost-efficient
- Food- and pharmaceutical-safe
- Nestable design for efficient storage and shipping

Smart Sustainability Logistical Insights

Our pallets can assist your company in achieving its sustainability goals by providing lasting value that prevents waste from ending up in landfills. All pallet resin is produced in-house and is derived from recycled industrial and post-consumer plastic waste. We are dedicated to resolving your logistical challenges while promoting sustainability for a long-lasting impact.

In our mission to foster a closed-loop economy, we offer the option to implement RFID technology to ensure accurate tracking. Monitor inventory and track pallets as they effortlessly undergo 200 cycles.

More premium add-ons:

- Pallets embossed with your company's logo
- Color match pallets to promote your company's brand
- Customizable formulation to meet your organization's needs
