

### CASTER-MOUNTED GRAVITY CONVEYOR

CarterMobile™ Gravity Conveyor is mounted on casters for quick and easy system reconfiguration.

### MODULAR, SCALABLE AND FLEXIBLE

All system components for CarterMobile™ are completely modular to provide the flexibility needed to easily change configurations as needed.

### EASILY INSTALLED

CarterMobile™ installation is as easy as setting up a card table. All you have to do is unfold the legs, secure the supports, and just like that it's ready to move product.

### CONFIGURED TO ORDER

CarterMobile™ Gravity Conveyor is available in different widths and lengths to meet your needs. Height settings are adjustable and can be inclined or declined as needed.

### FULL SYSTEM COMPONENTS AVAILABLE

Available CarterMobile™ System components include:

- Straights
- Lift Gates
- Curves
- Floor Curves
- S-Curves
- Herringbones
- Skews
- Inclines
- Gravity

All system components have the same caster-mounted mobility.

### LIMITED PERMITTING REQUIRED

Because CarterMobile™ is not a permanent MHE installation, there is little or no electrical or mechanical permitting required to install and operate in most U.S. jurisdictions.
